The following are excerpts from the City of Lexington Code Book.

**CHAPTER 3
MUNICIPAL UTILITIES - RULES AND REGULATIONS,
RATES, CHARGES AND COLLECTIONS**

SECTION 3.02. FIXING RATES AND CHARGES FOR MUNICIPAL UTILITIES.

All rates and charges for municipal utilities, including, but not by way of limitation, rates for service, permit fees, deposit, inspection fees, water prepayment fees, connection and meter testing fees, disconnection fees, reconnection fees including penalties for non-payment if any, shall be fixed, determined and amended by the Council and adopted by resolution. Such resolution, containing the effective date thereof, shall be kept on file and open to inspection in the office of the Clerk and shall be uniformly enforced. For the purpose of fixing such rates and charges, the Council may categorize and classify under the various types of service, provided, that such categorization and classification shall be included in the resolution authorized by this Section.

SECTION 3.04. RULES AND REGULATIONS RELATING TO MUNICIPAL UTILITIES.

Subd. 5. Right of Entry. The City has the right to enter in and upon private property, including buildings and dwelling houses, in or upon which is installed a municipal utility, or connection therewith, at all times reasonable under the circumstances, for the purpose of reading utility meters, for the purpose of inspection and repair of meters or a utility system, or any part thereof, and for the purpose of connection and disconnecting service.

SECTION 3.20. RULES AND REGULATIONS RELATING TO WATER SERVICE.

Subd. 2. Repair of Leaks. It is the responsibility of the consumer or owner to maintain the service pipe from the curb stop into the house or other building. In case of failure upon the part of any consumer or owner to repair any leak occurring in his/her service pipe within twenty-four (24) hours after oral or written notice has been given the owner or occupant of the premises, the water may be shut off and will not be turned on until a reconnection charge has been paid and the water service has been repaired. When the waste of water is great or when damage is likely to result from the leak, the water will be turned off if the repair is not proceeded with immediately.
